

Cleaning the bathroom drains

Please follow the steps below to do the cleaning of the bathroom drain in Grundtvigsvej, Nordre Fasanvej, Signalhuset and some other apartments. You will/might need the following materials:

- gloves
- garbage nylon bag
- philips screwdriver

Step 1: remove or loosen the 2 screws in the corner of the grid (some grids have no screws)

Step 2: lift the grid up and remove it to reach the water trap

Step 3: now you can reach the water trap which stays deeper in the drain

Step 4: pull the water trap bowl out

(continues on next page)

Step 5: you can see the hair and other built-up which block the water trap

Step 6: place the water trap bowl in a nylon bag. Remove the built-up hairs and put them in the nylon bag (it is not allowed to put the flith in the toilet as it can cause further blockage!)

Step 7: clean the water trap well inside and outside (you can use the shower)

Step 8: place the water trap well in its place and fill it up with water in order to stop the drain smell. Finally place the grid back.
