

# Checklist for cleaning the Tumble Dryer

## Instructions

- ☒ Clean the fluff filters before and after the drying program
- ☒ Before start a program check if the drum can turn freely and it is not blocked by any item
- ☒ After the program finishes, leave the door a bit open so the tumble can dry up. If something is on the way, and the door cannot be left open, then dry it with a soft dry cloth.
- ☒ Empty the water tank regularly
- ☒ Clean the condens filter by using a soft brush and vacuum cleaner once a month
- ☒ Make sure not to leave wet clothes in the dryer as it will cause bad smell and eventually mold
